

Civil War Artillery at Gettysburg

By Philip M. Cole

Colecraft Industries. Paperback. Book Condition: New. Paperback. 324 pages. Dimensions: 9.9in. x 6.9in. x 0.5in. There were over 600 artillery pieces at Gettysburg. The guns were managed and operated by over 14,000 men. In three days over 50,000 rounds were fired. What impact did artillery have on this famous battle? How efficiently were the guns used? What were the strengths and weaknesses on each side? *Civil War Artillery At Gettysburg* answers these questions and many more. Using accessible descriptions, this work details the state of the art of this long arm as it existed at the time of the battle. It is an informative overview of field artillery in general while using the battle of Gettysburg to illustrate artillery technology. For it was Gettysburg when the artillery branch of both armies had matured to the point where its organization would stay relatively unchanged for the remainder of the war. Both armies prior to Gettysburg had neither the same mix of guns nor, more importantly, the same structure of organization as it did at this battle. The effects were telling. This book is an artillery buff's delight. . . The work meticulously examines the forming of the respective artillery arms...
