Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Educational Supervision This small volume is designed for principals, supervisors, and superintendents, and for use in classes in supervision in teacher training institutions. It is hoped that it will furnish to those responsible for educational supervision some such help as the author himself so frequently felt the need of in his experience as superintendent of schools, and, it might be added, so seldom found. Educational supervision is a comparatively new field and while its subject-matter is rapidly increasing the process of integrating, that subject-matter has only just begun. If the author can lay any claim to having made a contribution to the science of supervision, he believes it is by way of a better integration of the theory of supervision. He has aimed primarily at a clearer, more definite and concise statement of the underlying principles and guiding aims of supervision. The author has drawn freely from available sources and gratefully acknowledges the many courtesies extended by authors and publishers and by teachers and superintendents who have contributed to this work.
