FIRE SUPPORT (FM 3-09) (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The foundation of unified land operations is built on initiative, decisive action, and mission command-linked and nested through purposeful and simultaneous execution of both combined arms maneuver and wide area security-to achieve the commander s intent and desired end state (Army Doctrine Publication (ADP) 3-0). Achieving the necessary level of operational adaptability requires the Army to build upon a foundation of two broad responsibilities within the framework of fullspectrum operations-Army forces conduct combined arms maneuver (CAM) to gain physical, temporal, and psychological advantages over enemy organizations. Applying an expanded understanding of combined arms, Army forces integrate the combat power resident in the Army s six warfighting functions with a wide array of related civil and military capabilities to defeat enemies and seize, retain, and exploit the initiative; and Army forces conduct wide area security (WAS) to consolidate gains, stabilize environments, and ensure freedom of movement and action. This publication identifies the principles of fire support, describes the fires warfighting function in terms of its major components, functions, and required products and describes how fire support is employed in terms of the operations process. The scope of this publication is broad in its focus in order to deal with the fire support structure as a complete entity. It gives equal treatment to the diverse assets that are designated as...
