

Leadership and Governance: Implication on the Nigerian Economy

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

LEADERSHIP AND GOVERNANCE: IMPLICATION ON THE NIGERIAN ECONOMY

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 242 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. Leadership and Governance is a collection of essays on political economy, leadership and governance, and corruption and community development, as well as on information technology and education. This book, thus, presents a broad overview of the major problems facing the Nigerian economy. Towards that, the contributors highlight the relationship between good leadership and governance and the economic health of Nigeria as they explore the forces for a meaningful change in the polity. This book asserts that political leaders in Nigeria should be held to a higher standard of leadership and governance in order for the economy to grow and develop for common good. Nigerias educational system is the foundation for its national development. But this is impossible without investing in human capital (education and health), fixing the existing dilapidated infrastructure and institutions and acquiring technological capability that drive the economy. The power of productivity of the Nigerian economy cannot rise above the quality of its leadership, governance and graduates. Today Nigerias young democracy is in a state of uncertainty because of ineffective leadership and governance as well as lack of accountability. Since all the essential factors are missing in Nigerias scheme of affairs, its economy as well as the democracy transition will continue to choke and stagnate. There are myriad ways to reform the Nigerian educational system, improve its quality of graduates and the state of the economy. But closing the nations higher institutions for five months on the pretext that there is no money to meet teachers demands is not a way to improve the state of education and its weak economy. The trouble with Nigerias democracy is that the people do not get the type of government they...
