Dover Publications. Paperback. Book Condition: New. Paperback. 64 pages. Dimensions: 9.0in. x 6.3in. x 0.2in. Many art students and professionals have mastered the art of depicting unclothed figures, but still have trouble accurately rendering clothing or other forms of draped cloth. Part of the problem before this book came along was that there was a lack of concise and simple instruction on the subject, and much that was written was too vague to be helpful. This comprehensive, well-illustrated book was created to solve the problem. In these pages George Bridgman a long-time instructor at New Yorks Art Students League and one of the nations foremost teachers of figure drawing offers expert advice on depicting draped figures. Clothing is none other than a drapery arranged around a body that is beneath it. To express the multitudinous forms it takes, one should learn to express in a direct way the different characters of folds, for each one plays its individual part as distinctly apart as actors play their different characters upon the stage. Students learn the characteristics of seven different kinds of folds and how to render them, including pipe, zigzag, spiral, half-lock, diaper pattern, drop, and inert folds. Mastery of these principles is the key to realistic portrayal of garments, as well as the proper rendering of cloth in still lifes. The straightforward, easy-to-follow text is illustrated by 200 of Bridgmans own sketches and diagrams, reproduced from pencil renderings in crisp halftones. Art students, teachers, and professionals alike are sure to welcome this inexpensive republication of a practical, hands-on manual by a master of figure drawing. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
