paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: Machinery Pub. Date :2010-01-04. book as a general higher education Eleventh Five-Year national planning materials. is an applied, practical, strong technical foundation teaching materials. The book covers the programmable device technology for all applications EDA technology and design through examples and experiments to provide readers with a technical learning guide. The organization and preparation in the content of the style, tried to be combined with new and detailed design examples, shallow depth, informative, focusing on practical and design skills, so that power majors, engineers and technicians use the book quickly into EDA area, master in electronic system design work necessary for the basic competencies and skills, and through a large number of design examples and the overall design of the different levels of readers to improve their level of EDA technology. This book is divided into six chapters, including an overview of EDA technology, programmable logic devices and digital system design, MAX + plus software applications, Quartus software applications, VHDL, and EDA design based integrated design. The appendix describes the experimental development related to EDA system s hardware configuration, software and resources for readers reference. This book can be used as electrical and electronic information class institutions of higher learning, instrumentation type, Automation, and other similar professional, specialist health-related course materials and reference books are also available for the relevant professional engineering and technical personnel and a variety of EDA technology trainees learning, use and reference. Contents: Preface Chapter 1 Overview 1.1EDA EDA technology and technological development and its future technology development process 1.1.2 1.1.1EDA the future of EDA technology 1.2EDA technical elements and technical elements of experimental 1.2.1EDA 1.2.2EDA Technology and experimental 1.3EDA constitute 1.3.1EDA software...
