If you are studying at undergraduate or masters level it s likely that you will have to write a dissertation, critical essay or project report before you can graduate. Unfortunately, many good pieces of student research and inquiry are devalued - and sometimes even fail - because they are badly planned, structured or written. Make all that hard work count! This new guide looks directly at the processes, techniques and objectives of writing the dissertation itself. It covers longer term aspects - such as planning, scheduling, structuring - and more immediate ones - such as style, detail and managing the length. - Learn how to understand and decode the academic language of research questions, learning outcomes, objectives and assessment criteria, and translate them into the right form of words. - Discover how to maintain that essential focus on your objectives and research question or hypothesis, and their connection to your discussion and eventual conclusions. - Develop a schedule, identifying the tasks and milestones that...
