Lulu.com, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Is user experience worth doing? At times when the money is tight, the user experience audits are one of the things that get cut, but this report highlights just how important audits are, to the people being audited, to the staff, and to customers. The study finds that people's behaviour changes, just because they have been listened to; but also staff feel more engaged, organisations innovate more, there are fewer legal disputes. For all commissioners of services for vulnerable adults, this report shows what can be measured and what return on investment you can get. It's accredited by the SROI Network showing that it complies with the Social Return on Investment principles, and with a Return on Investment that pays for the audits and more, you can't afford NOT to give your vulnerable people the best care available.
