Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: French . Brand New Book ***** Print on Demand *****. Pour Concept, il faut lire: etat de complexite cerebrale qui permet la formation d entites abstraites capables de traiter la mouvance materielle par des operations d analyse et de synthese. L activite conceptuelle qui consiste a meubler ce nouvel espace mental d outils appropries n est qu une part superficielle de la puissance de l organisme. Cette part superficielle, la puissance d abstraction mentale, est essentielle a la specificite de l humain. Mais elle a tendance a canceriser l organisme qu elle constitue. La conduite pathologique de la faculte conceptuelle consiste a vouloir convertir l organisme entier a son mode de fonctionnement. L intuition, cette conscience de presence, est la dynamo de l amour, de l empathie, de la sensibilite. La spiritualite est l attention portee a l esprit qui informe la matiere. L organisme humain est une vivante contradiction: il vit et meurt selon la loi incarnee dans l instinct, la force cosmique ne le traite pas autrement que les autres particules; cependant, la conscience qui habite cet organisme le distingue de toutes les autres especes parce qu elle se voit exister dans cette dependance, et par ce fait, vit une liberte.
