

## Macrophages and Lymphocytes

Filesize: 5.91 MB

### **Reviews**

*This ebook is worth acquiring. Better than never, though I am quite late in starting to read this one. You will not truly feel monotony at any time of your own time (that's what catalogues are for about if you ask me).*

## MACROPHAGES AND LYMPHOCYTES

[DOWNLOAD](#)

Book Condition: New. Publisher/Verlag: Springer, Berlin | Nature, Functions, and Interaction | The Reticuloendothelial (RE) Society, which is concerned with advancement of knowledge concerning the many diverse functions of RE cells, organizes national and international meetings and publishes a scientific journal. The VIII International Congress of the RE Society was held in Jerusalem, Israel, June 18-23, 1978. The Congress had as its scientific objective a wide range of subjects concerning the RE System, especially as related to macrophage function and interaction with lymphocytes. Emphasis of the Congress was placed on the nature and function of macrophages and other cells of the RE System with reference to immune responses, anti-infectious activity, tumor immunity, autoimmunity, and transplant rejection. The secretion of soluble factors by macrophages and lymphocytes and the mode of action of these factors on other cells was stressed. During the Congress some discussion was entertained concerning the controversy as to what constitutes the "RE System" per se. Some investigators feel that the phagocytic activity of macrophages is the most important aspect of the RE System playing also a major role in many parameters of immunity. Mononuclear phagocytes include tissue macrophages as well as circulating monocytes and their precursors. Although phagocytosis is a major functional activity of these cells, it is only one of several activities. | of Part A.- Section 1 Enzymatic and Metabolic Activities of the Reticuloendothelial System.- Association of Some Metabolic Activities of Leukocytes with the Immune Response.- Role of the RES in Lead Salt Sensitization to Endotoxin Shock.- A Metabolic Comparison Between Human Blood Monocytes and Neutrophils.- The Regulation of Macrophage Activities: Role of the Energy-Dependent Intracellular Ca<sup>2+</sup> Buffering Systems.- O<sub>2</sub><sup>-</sup> and H<sub>2</sub>O<sub>2</sub> Production During the Respiratory Burst in Alveolar Macrophages.- Biochemical and Biological Properties of Leukocyte Intracellular Inhibitors of Proteinases.- Immunological Studies...
