Createspace, United States, 2012. Paperback. Condition: New. Large Print. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Two major areas are explored in these letters--one barely on the public Radar, the other in the headlines daily: Specifically, the establishment of Fail-Safe electronic voting in every jurisdiction in America; and Jobs. Regarding fail-safe electronic voting--visualize that Wal-Mart handed us a piece of paper with the words trust us as a receipt for our purchases-and you will have a consummate understanding of our current electronic voting, in America. Regarding jobs, for the past 65 years we have had two parallel paths to address unemployment in America-Most Americans are unaware of the alternate path-and our media never invites experts, or anyone, to discuss it-albeit, it is the law of the land-i.e., we have the legal authorization to implement it--and most Americans support its implementation.
