Reviews

This publication is fantastic. It is one of the most amazing publication i have got study. I am just pleased to explain how this is actually the best pdf i have got read through in my individual lifestyle and could be he finest publication for possibly.

(Mr. Kristoffer Hills)

AN ELEMENTARY TREATISE ON ALGEBRA, IN THEORY AND PRACTICE WITH ATTEMPTS TO SIMPLIFY . THAT SCIENCE . WITH NOTES AND ILLUSTRATIONS . TO WHICH IS . ON THE APPLICATION OF ALGEBRA TO GEOMETRY

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 84 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1840 Excerpt: . . . is to become to some particular quantity for $x = 0$, the first term of the series must be taken singly, or without an x ; and if it is to become equal to zero, for 20 , the first term must contain x . 2. Also, if any term be either omitted or introduced into the series that does not belong to it, the comparisons of the homologous terms will always show the impropriety of it, by their leading to absurd equations. Thus taking, for instance, as a partial example of the first of these cases, -it ought. Hence, multiplying the right hand member by ar^{-} , we shall have $a---B-rA$, $I Z--4-A$, $I xm--At I a--8 4-0-- 6$. And, consequently, by putting the coefficients of the several terms of the product, except the first and last, equal to 0, there will arise the following relations: , 3 I Cf 3 I TV-p l--aB--aR 4-flS. In which case, as the corresponding powers of x in both series have a term, that for the development of the quotient appears to have been rightly assumed. Wherefore, bringing all the terms to the left hand side of the equation, we shall have In the case where the index, in the above expression, is a fractional number, which requires a different investigation, the same formula may be exhibited under the form. being, in this state, a similar theorem to that given by Lunden, Jff his Residual Analysis, from which he attempted to derive...
