Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1900 edition. Excerpt: . alternation of direct and indirect narration, accusative with infinitive, and ablative absolute, and its finely-graded sequence of tenses, and the heavy and monotonous classical Sanskrit sentence overloaded with participles and gerunds, often to the almost complete exclusion of the finite verb, and its long compounds which usurp the functions of inflection. Greek, again, uses its inflections in a very different way from Latin, and more like the modern analytical languages of Europe. From this point of view the morphological classification of languages acts as a welcome corrective to the purely genealogical and historical classification. It teaches us both to recognize what are the really characteristic and more or less permanent features in the different periods of a language or in the members of a group of cognate languages, and also to realize that languages genealogically unconnected may develop similar morphological structure. But even an elaborate morphological classification does but scant justice to the infinite variety of linguistic structure, as we see from what has just been said about the divergent structure of Sanskrit, Latin, and Greek. Phonetic Individuality.--The first thing that strikes us in a new language is, of course, its phonetic structure. This depends, in the first place, on the sounds of which it is composed. Every language, and every period of a language, DEGREES selects for its own use only some out of the whole body of available sounds. Thus English has mixed vowels, but no front-round vowels of the type...
