

Thought and Things, Vol. 1: A Study of the Development and Meaning of Thought or Genetic Logic (Classic Reprint)

By James Mark Baldwin

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Thought and Things, Vol. 1: A Study of the Development and Meaning of Thought or Genetic Logic The object and topic of the present work are sufficiently explained in the Introduction. The phrase Genetic Logic is there commented upon. I should prefer to use that phrase for the principal title; but remembering the varying meanings of the word Logic, I hesitate to do so, and adopt, at the publishers suggestion, a title that is less severe, although, if taken literally, still sufficiently descriptive. It is Thought and its objects, Things, that the work treats of; so Thought and Things is really my topic. The work is in line with certain endeavours characteristic of the time. The inroad of evolution and development theories, under the general notion of genesis, upon various preserves of the older disciplines, is resulting in a certain obliteration of boundaries and readjustment of methods. What has been called the longitudinal treatment of the cargo of science is forbidding its storage in the water-tight and exclusive compartments of the good old ship of...
