

## The Physics of NASCAR: The Science Behind the Speed (Paperback)

Filesize: 1.13 MB

### **Reviews**

*This book is great. I have go through and so i am confident that i will going to read through once again again in the future. I am just easily can get a satisfaction of looking at a written book.*

*(Miss Vernie Schimmel)*

## THE PHYSICS OF NASCAR: THE SCIENCE BEHIND THE SPEED (PAPERBACK)

Penguin Putnam Inc, United States, 2009. Paperback. Condition: New. Reprint. Language: English . Brand New Book. A physicist explores the science of speed racing and the #1 spectator sport in America, with 75 million fans. Every NASCAR fan at one time or another asks the same question: Why isn't my favorite driver winning? This is your chance to discover how much more there is to NASCAR than Go fast, turn left and don't crash. If you've ever wondered why racecars don't have mufflers, how bump drafting works, or what in the world Let's go up a pound on the right rear and add half a round of wedge means, The Physics of NASCAR is for you. In this fast-paced investigation into the adrenaline-pumping world of NASCAR, a physicist with a passion uncovers what happens when the rubber hits the road and 800-horsepower vehicles compete at 190 miles per hour only inches from one another. Diandra Leslie-Pelecky reveals how and why drivers trust the engineering and science their teams literally build around them not only to get them across the finish line in first place, but also to keep them alive. Leslie-Pelecky is a physicist in love with the sport's beauty and power and is uniquely qualified to explain exactly how physics translates into winning races. Based on the author's extensive access to race shops, pit crews, crew chiefs and mechanics, this book traces the life cycle of a race car from behind the scenes at top race shops to the track. The Physics of NASCAR takes readers right into the ultra-competitive world of NASCAR, from the champion driver's hot seat behind the detachable steering wheel to the New Zealander nicknamed Kiwi in charge of shocks for the No. 19 car. Diandra Leslie-Pelecky tells her story in...
