

Graph-Theoretic Concepts in Computer Science: 30th International Workshop, Wg 2004, Bad Honnef, Germany, June 21-23, 2004, Revised Papers

Filesize: 3.66 MB

Reviews

The most effective book i ever read through. It can be rally fascinating throgth looking at time period. Your lifestyle span will be enhance when you complete looking over this publication.

(Maribel Kerluke)

GRAPH-THEORETIC CONCEPTS IN COMPUTER SCIENCE: 30TH INTERNATIONAL WORKSHOP, WG 2004, BAD HONNEF, GERMANY, JUNE 21-23, 2004, REVISED PAPERS**DOWNLOAD**

Springer. Paperback. Book Condition: New. Paperback. 404 pages. Dimensions: 9.2in. x 6.1in. x 0.9in. During its 30-year existence, the International Workshop on Graph-Theoretic Concepts in Computer Science has become a distinguished and high-quality computer science event. The workshop aims at uniting theory and practice by demonstrating how graph-theoretic concepts can successfully be applied to various areas of computer science and by exposing new theories emerging from applications. In this way, WG provides a common ground for the exchange of information among people dealing with several graph problems and working in various disciplines. Thereby, the workshop contributes to forming an interdisciplinary research community. The original idea of the Workshop on Graph-Theoretic Concepts in Computer Science was ingenuity in all theoretical aspects and applications of graph concepts, wherever applied. Within the last ten years, the development has strengthened in particular the topic of structural graph properties in relation to computational complexity. This workshop has become pivotal for the community interested in these areas. An aim specific to the 30th WG was to support the central role of WG in both of the prementioned areas on the one hand and on the other hand to promote its originally broader scope. The 30th WG was held at the Physikzentrum Bad Honnef, which serves as the main meeting point of the German Physical Society. It offers a secluded setting for research conferences, seminars, and workshops, and has proved to be especially stimulating for fruitful discussions. Talks were given in the new lecture hall with a modern double rear projection, interactive electronic board, and full video conferencing equipment. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
