It is great and fantastic. Better than never, though I am quite late in starting to read this one. Your life period will likely be transformed once you comprehensively read this book.

Editorial Nueva Vida, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Without mattering what a person believes or understands about his/her own existence, logic and reason within them disturbs and compels them to look for answers for the purpose of life; because it is obvious that their life is slowing passing by. In this book, wise expressions of God-believing great scientists are presented; in contrast to the improbable myths that Atheistic Scientists declare. Due to the fact that the basic questions of life do not have satisfactory answers in Atheism, those that call themselves Atheists have resorted to the absurd rejection of verified facts, promoting fables disguised as scientific truths; and making pretentious unfounded declarations, attempting to calm and silence the conscience of everyone who asks a reason why they believe what they believe.
