Tpaf, 2017. Paperback. Condition: New. Language: Japanese . Brand New Book ***** Print on Demand *****.What is Mindfulness: English words Mnemonics? In Japanese, we usually read and write from left to right if horizontal writing, from top to bottom if vertical writing, and in English, from left to right. However, in addition to the usual reading style, if you use unicursally written graphics and incorporate reading styles that you do not usually use, reading from right to left and from bottom to top, your brain functions will be activated and your memory will be enhanced. Also, while walking in a crowd, if you are looking at only one person, you will strike other people, but if you concentrate on each word, noticing it and becoming conscious of the whole at the same time, you will be conscious of the parts and the whole one after the other, like the relation between the place and the figure, as being called in psychology, and your memory is activated.
