

Branch of Research, Monthly Report of Forest Experiment Stations, Forest Products, Forest Economics, Range Research: September, 1933 (Classic Reprint) (Paperback)

By United States Forest Service

FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Branch of Research, Monthly Report of Forest Experiment Stations, Forest Products, Forest Economics, Range Research: September, 1933 Out of 325 replies to the 1932 census questionnaire, 115 reported as Idle and 25 as Dismantled or Out of business. Six non-operating concerns were in the group of 18 large mills having annual capacities of to mlb.m; per annum. The 12 active members of this group had reduced their collective output to 38 percent of their boom-period production. For the 18 largest mills as a whole, the 1932 cut was a bit less than 28 percent of pre-1930 production. In the size-class producing from M to Mia year each between 1923 and 1930, 15 out of 26 mills were idle. The 1932 output of the active mills in this class was only 19 percent of the past combined production of the whole group. Reviews

Very useful for all group of people. It is amongst the most incredible pdf i actually have read through. Its been written in an extremely straightforward way and it is just right after i finished reading through this pdf by which basically modified me, change the way i think.

-- Felicia Nikolaus

These sorts of ebook is the ideal book offered. It can be writter in simple terms rather than confusing. I discovered this pdf from my dad and i advised this publication to understand.

-- Mr. Alejandrin Murphy PhD
