Brand New Book ***** Print on Demand *****.The Scrolls of Talos is a captivating and suspenseful fictional tale, with a parallel plot. Based around a true historical background, the story sets out in present day Athens, at the Archaeological Museum of Science. A drama begins to unfold concerning an incredible newfound artifact buried on the island of Crete, the contents of which, will lead to an astonishing discovery. You are then transported from the present far back into ancient history, arriving at a time, shortly after the death of Jesus Christ in the first century AD. Greece has long since given way to the mighty Roman Empire, where there are powerful figures arising behind the iron fist of the Roman. Both past and present dramas slowly unfold, finally completing a finished picture. You will follow the journeys of a man called Talos, born and raised on the island of Crete; who s life of strange fortune and intrigue only just begins when he becomes a part of the Roman machine. The struggles Talos encounters of love, danger, betrayal and revenge dissolve dramatically, when destiny powerfully draws him to the ancient city of Ephesus and finally to the island of Patmos; where he meets a man that will change his life forever, revealing wonderful yet foreboding sacred writings which unlock a window to the future.
