

## An Encyclopedia of Seven (Paperback)

By Marty Cooling

Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. An Encyclopedia of Seven is a fascinating and fun-filled compendium celebrating all things relating to the number seven. Author Marty Cooling has transformed a personal quest to compile and document interesting lists with seven component items, alongside countless registers of seven-related matters, into this delightful volume of trivia, facts, and fictions. If you are already a septomaniac-a person who loves the number seven-you will be surprised to discover just how much you know, and will marvel over how much there is yet to learn about the number seven. Everyone else in the world will invariably find upon reading An Encyclopedia of Seven that the number is a boundless source of intriguing convergence, inspired utility, and improbable good fortune. It is a topic that has remained a subject of ardent fascination dating back to the beginning of recorded history, and Marty Cooling brings a fresh perspective that embraces all of the number seven's wonderful and particular qualities. Carefully steering clear of academic jargon and proselytizing cliches, the author has created a work of good will and good humor in the form of...
