Mental Tests in Clinics for Children (Classic Reprint)

By Grace H Kent

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Mental Tests in Clinics for Children This is intended as an auxiliary textbook for advanced students in clinical psychology, written to encourage in them a critical and experimental attitude in their use of mental tests. It has been my wish to avoid any considerable overlap with the writings of others, and to present a point of view not generally recognized. Ever since Binet gave us the idea of a mental yardstick, it has been customary to evaluate individual achievement in terms of statistical criteria. Parallel with this trend there has been a tendency to lose sight of the individual. The norms of standard tests are based upon majority findings, and are doubtless applicable to the majority of children. It does not follow, however, that they are applicable to the exceptional child. Most of the children referred to the clinic are exceptional in some way, and we have no standard instrument that offers the exceptional child a fair opportunity to show what he can do. We examine him by a scale that may be grossly unfair...
