Sara learns that they are not echoes, but a connection to another dimension and this is where Atlantis is now. Our planet Earth is 4.5 billion years old and once the planet became habitable, intelligent life formed quickly, but approximately every 250 million years, there was a planet wide disaster, and the few that survived had to start again. Each period was called an existence, and it was believed that there were six existences with advanced civilizations, and all the knowledge they might have accumulated was lost in the destruction. The continent of Atlantis existed along the Atlantic ridge, tipped by what we now call Iceland in the previous existence, before ours. Atlantis is a beautiful paradise, with Dragons, Royals and Crystals. There are also legends, prophesies and enemies. Sara learns her connection to Atlantis is far more than just coincidence. She learns that she is a descendant of the great continent and she has been called for a higher duty. She accepts the duty without hesitation, meeting new friends, making new allies and meeting her destiny along the way, and then her parents are killed, and at 18 years of age, Sara finds herself the head of a multi-billion dollar business entity named Salo Enterprises, LLC in partnership with her uncle, Henry Matias Salo.
