Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from **A Model of Software Project Management Dynamics** This paper is a study of the dynamics of software project management. In Section (I) we argue for the attractiveness of using computer modeling techniques in the study and design of complex social systems. In particular, we advocate the use of the modeling, simulation, and analysis techniques of System Dynamics. In Section (II) we, then, present a System Dynamics model we developed for software project management. The model s three major subsystems: the human resource management subsystem, the planning and control subsystem, and the software production subsystem, are discussed in some detail. Finally, in Section (III), the dynamic behavior of the model is analyzed using a series of simulation runs. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
