Saunders The experiments described in this Report were for the most part begun in 1897, and are still in progress. A part of the cost of the work has been defrayed from the Government Grant Fund, the sums thus received having been in part allotted to us by the Evolution Committee, and in part directly by the Grant Committee. The use of the garden in which the botanical experiments were carried out was kindly permitted during 1901, rent free, by the Botanic Garden Syndicate. Following recognition of the fact that variations of animals and plants may be distinct phenomena, according as they are continuous or discontinuous, it seemed desirable to ascertain in as many cases as possible which variations belong to each of these categories. To answer this question specifically with regard to a diversity of forms, taking each character separately, and testing it by direct experiment in cross-breeding, was a primary object of our work. Such determinations must, in our judgment,...
