Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.After a brief but successful career in the agricultural business field, and three years into my sobriety, I decided to pursue a Master s Degree in Counseling and a new career. Upon graduation in 1995 I left my home state of California in search of the perfect town and the perfect job with the hopes of making a difference in this world. My sometimes erratic journey has since led me through over thirty jobs, in sixteen different cities, within eight different states, while trying to be of service to over one thousand people in various capacities and settings. Along my journey, in late 2007, something seemingly benign occurred which would soon prove to impact my life in an extremely profound manner. In the midst of a rather passive argument with my now former wife, I happened to glance up at the clock and notice the time. It was 9:11 p.m. Over the following years that number would continue to present itself to me with a relentless persistence on digital clocks, license plates, store receipts, and in every other conceivable manner. Upon being brought to a point of exhaustion and surrender, I was finally forced to come to terms with the question that kept haunting me, What does it mean? Searching for Mayberry is the story of my quest, a quest that has led me through much of America en route to its eventual conclusion; the discovery that our world is at a transition point - one of endings, and beautiful new beginnings.
