

The Reluctant Dragon: Crisis Cycles in Chinese Foreign Economic Policy (Paperback)

Filesize: 5.91 MB

Reviews

This ebook is worth acquiring. Better then never, though i am quite late in start reading this one. You will not truly feel monotony at at any time of your own time (that's what catalogues are for about if you ask me).
(Lorenz Vandervort)

THE RELUCTANT DRAGON: CRISIS CYCLES IN CHINESE FOREIGN ECONOMIC POLICY (PAPERBACK)**DOWNLOAD**

University of Washington Press, United States, 2014. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Chinese foreign economic policy before 1978 has been considered isolationist and centered on Maoist self-reliance. In this revisionist analysis, Lawrence Reardon argues that China was not out of touch with the global marketplace during the 1949-78 period and that Deng Xiaoping's heralded liberalizations in fact were revisions and expansions of policies from the Maoist period. The dramatic economic reforms initiated by China's leaders in 1978 boosted GDP by between 9 and 13 percent each year during the 1980s and 1990s, while the nation's foreign trade figures rose from a trivial US\$1.94 billion in 1952 to US\$325 billion in 1997. By opening to the outside world and liberalizing the domestic economic infrastructure, China has become the third largest and one of the fastest-growing economies in the world. The story of China's on-again, off-again trade efforts provides an important window on the cyclical struggle for power between Mao Zedong's ideologically driven allies and more pragmatic leaders such as Zhou Enlai and Deng Xiaoping, whose approach eventually prevailed. Reardon relies on primary sources, including Chinese Communist Party histories and other restricted-circulation materials that have recently come to light, to show that China's apparently sudden turn outward in 1978 was actually an extension of previous experiments hobbled by bureaucratic infighting and conflict among rival elites. He describes in unprecedented detail the seemingly contradictory strategies used by Mao and other leaders to assert China's absolute self-sufficiency while also striving to modernize the economy and achieve maximum prosperity as rapidly as possible. These latter goals required engagement with global economic forces - even capitalist nations - but were necessary to enhance national security in a hostile geopolitical environment and to assure continued domestic stability.
