Oxford University Press, United Kingdom, 2011. Multiple copy pack. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Substance of Language Volume I: The Domain of Syntax Volume II: Morphology, Paradigms, and Periphrases Volume III: Phonology-Syntax Analogies John M. Anderson The three volumes of The Substance of Language collectively overhaul linguistic theory from phonology to semantics and syntax to pragmatics and offer a full account of how the form/function relationship works in language. Each explores the consequences for the investigation of language of a conviction that all aspects of linguistic structure are grounded in the non-linguistic mental faculties on which language imposes its own structure. The first and third look at how syntax and phonology are fed by a lexical component that includes morphology and which unites representations in the two planes. The second examines the way morphology is embedded in the lexicon as part of the expression of the lexicon-internal relationships of words. The Domain of Syntax explores the consequences for syntax of assuming that language is grounded in cognition and perception. It shows that syntax is characterized by a set of categories based on distinctions in what the categories are perceived to represent. The first part of the book traces the twentieth-century development of anti-notionalism, culminating in the assumption that syntax is autonomous. The author then looks at syntactic phenomena, many involving the fundamental notion of finiteness. He considers whether the appeal to grounding permits a lexicalist approach that would allow syntax to dispense not only with structural mutations such as category-change and empty categories but with universal grammar itself. Morphology , Paradigms, and Periphrases is concerned with the role of the lexicon, in particular its inflectional morphology, in mediating between the substantively different categories of syntax and phonology. In the first part...
