Pan Stanford Publishing Pte Ltd. Hardback. Condition: new. BRAND NEW, The Microflow Cytometer, Jason S. Kim, Frances S. Ligler, This book will describe the continuing development of inexpensive, portable flow cytometers through incorporation of microfluidic technologies and small optical components. The underlying microfluidic theories essential for microflow cytometry will be discussed in detail, as well as advances that are representative of the current state-of-the-art. Design and fabrication strategies for these innovative component technologies will be subsequently presented by numerous research groups leading the field. Integration of the components into functional prototype devices for analysis and manipulation of particles and cells will be reviewed. Multiple currently available commercial systems will be examined to highlight both strengths and areas for improvement.
