

Bullspotting (Paperback)

Filesize: 5 MB

Reviews

Excellent electronic book and helpful one. It usually does not cost a lot of. I am quickly will get a pleasure of reading through a written publication.

(Bernardo Feeney Jr.)

Prometheus Books, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. This entertaining and educational book applies the tools of critical thinking to identify the common features and trends among misinformation campaigns. With illustrations drawn from conspiracy theorists and deniers of every stripe, the author teaches readers how rumors are started, and the rhetorical techniques and logical fallacies often found in misleading or outright false claims. What distinguishes real conspiracies from conspiracy theories, real science from pseudoscience, and actual history from bogus accounts purporting to be history? How does one evaluate the credibility of rumors and quotes or judge the soundness of legal arguments advanced by tax deniers? Readers will learn how to make these critical distinctions and also how to spot evidence that has been manufactured or manipulated in some way to create a false impression. At a time when average citizens are bombarded with false information every day, this entertaining book will prove to be not only a great read but also an indispensable resource.
