Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Most of us have experienced a day when our life path changes, through no fault of our own and without the ability to stop it from happening. This is the story of such a day, in a small family owned grocery store in Mill Valley, California. The store chain is about to be bought by a bigger chain, a common occurrence in the 1980s San Francisco Bay Area. The news that this piece of gossip is coming true affects all of the employees. Located conveniently across the street from the local Jr. College, the coeds, hippies, and snobby socialites make up some of the interesting hodgepodge that are the customers. The crew that inhabits the store during their various shifts have their own peculiarities, and give an amusing and ridiculous behind-the-scenes view of what really happens in this grocery store. Before scanner technology, rewards cards, and plastic grocery bags, the blue collar job of a retail grocery clerk was a solid career path. Interacting with the customers on good days and bad, with their unending supply of personality quirks, made every day special. If you have ever worked in a grocery store or have the occasion to show in one, this book is for you. It will definitely make you laugh, might even bring a tear to your eye, but it is absolutely the best grocery store book ever written. Maybe the only grocery store book ever written.
