Source: Forest Service Handbook. a A low standard road is one which has a rough and irregular surface where traffic flow is slow and two-way traffic is difficult. While the road can accommodate high clearance vehicles, it may not provide safe service to all traffic. b Girdling is a process whereby tree trunks are severed to remove the outer layers of bark and other woody material. This constricts the level of nutrients available to support tree life and can result in a snag - a standing, dead tree. c These include certain areas with fire regimes that have been moderately or significantly altered from historical ranges.
