H. Lewis Smith, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Undressing the N-word depicts the state of sociological views regarding questions that have been on people s minds for years but have been considered too sensitive to talk about openly. Among these types of taboo-type discussions is one that analyzes the systemic psychological warfare and psychosocial treatment of one group over another. The systemic subjects the oppressed group to seeing, through a controlled national media, only the worst in themselves. Undressing the N-word reveals and ties together how such socially-engineered behavior brings about and correlates to crime, unemployment, welfare, child neglect, drugs, and poverty; further, the text brings to light what policy can-and cannot-do to compensate for differences in social stratification and economic disparity. Brilliantly argued and meticulously presented, Undressing the N-word is the essential first step in coming to grips with the nation s social problems.
